

SHOP POS

SHOP POS is specially designed for the retail and hospitality industries where counter space is limited. Innovative design gives SHOP POS a footprint smaller than a sheet of letter size paper.

The Senor **SHOP POS** is more than just a computer, it is perfectly designed for the point-of-sale. Dependable, reliable, with high transaction throughput, and a stylish, yet rugged form factor. Senor has engineered many patented and proprietary features into **SHOP POS**.

- An infinitely, motorized tilting LCD Touch screen for high screen clarity and ergonomic positioning of the touch screen.
- A specialized high performance power supply, with the extra power needed to supply most peripherals, thus reducing the need for extra power blocks.
- Display media and messages on a *DUAL* screen facing the customer. Ideal for advertising and promotional messages.
- And the world-renown Senor engineering excellence.

You can look forward to years of high quality performance, because **SHOP POS** is perfectly built for the point-of-sale . . . built to last . . . and built to perform.

The LCD angle is infinitely adjustable

How does Senor achieve high performance, with reliability and long life? The patented SHOP POS design is based on more than 15 years of experience in the point-of-sale sector. All key components are designed and built by Senor, and only the highest grade components are used. The Shop POS screens are all AA quality with a high screen brightness of at least 200cd/m².

All Senor POS systems are exhaustively tested in our automated quality lab before they are sent to you. Please compare our features:

- Precise screen angle adjustment with the press of a button
- The SHOP POS is engineered for the demanding point-of-sale environment so it's splash proof and dust proof
- Convenient wireless infra red keyboard reduces cable clutter
- Easy software installation and service with a removable hard disk drive and optional internal floppy disk and internal CD ROM
- Bright and easy to read, 20 characters x 2 lines internal VFD Customer Display
- Space saving, wall-mounting kit is also available for SHOP POS
- Hardware specifications can be customized to your specific requirements
- Options include integrated Magnetic Stripe Reader, Smart Card Reader, and 40 keypad attachment.
- Manufacturer's sparing level is kept to reduce obsolescence
